Surge Protection For The Whole House

The popularity of home offices, the internet and home theaters means that there are more home electronics that are vulnerable to voltage surges than ever before. A Whole-House protection plan must protect against voltage surges on both the powerline and the telephone or communication lines. Homeowners may be unaware that surges can enter their expensive electronic equipment (modems, FAX machines, answering machines, TV's and VCR's) through telephone lines and cable TV or satellite dish connections. Most surge protective devices (SPD's) designed for the AC powerline will not prevent telephone or communication line surges from damaging valuable equipment. As a result, Leviton offers a complete selection of SPD's for powerline, telephone and communication line applications.

51110-PTC

Complete Warranty Coverage

We stand behind every Leviton Surge Protective Device. The Panel-Mount Surge Protective Devices are backed by Leviton's Limited 10-Year Warranty. Many plug-in SPD's and stand-alone and stackable low-voltage Surge Protective Devices are backed by Leviton's Lifetime Limited Warranty that covers not only the surge protective devices, but also the loads they protect up to \$25,000. Your Leviton representative can provide you with detailed information.

Technical Support

Our technical support is staffed by trained professionals six day a week (8:30 - 7:30 Eastern Time) and can be reached at 1-800-648-3332.

Multimedia Surge Suppression Panel

- Installs at load center to divert high-energy surges on 120/240V, 50/60 Hz single-phase AC power lines.
- Provides 2-pair telephone/fax/modem protection using hard-wired screw terminations.
- Dual CATV/satellite feed surge protection.
- DHC Power Line Carrier compatible.
- Separate Phase 1 and Phase 2 status indicator lights
- Protected Equipment Warranty covers \$10,000 for "White Appliances"/\$25,000 for Communication Electronics

Application No.	Application/Product
1 4 11 12 13	<p>Surge Arresters 54175, 55175 & 55650 Series</p> <ul style="list-style-type: none"> • Designed for 120/240V single phase and 277/480V three-phase • Rugged housing constructed of outdoor-rated, high-impact thermoplastic • Available with visual and audible diagnostics

Application No.	Application/Product
2 5	<p>Power Strips 5950 Series</p> <ul style="list-style-type: none"> • Expandable modular design with two slots for interchangeable low-voltage protection modules for DSL, ethernet and cable modems • Visible and audible diagnostics monitor power and suppression status • Available in computer and home theater configurations.

Application No.	Application/Product
1 3 6 8 10 11	<p>Panel-Mount Multimedia Surge Protective Device (Cat. No. 51120-1)</p> <p>Unit is UL1449 TVSS Listed 2nd Edition and is intended for indoor installation at the main breaker. Also available in outdoor 3R enclosure.</p>

Application No.	Application/Product
2 5 7 9	<p>Duplex Surge Suppression Receptacles</p> <p>These attractive Decora-styled units feature economical, efficient 3-mode MOV protection with steady illuminated LED. Replaces standard duplex receptacles, which makes them an ideal choice for retrofit applications.</p>

Application No.	Application/Product
2 5	<p>Entertainment Equipment and Whole House Router and Repeater Surge Protective Devices 19" Rack-Mount Surge Protective Devices</p> <p>Mounts on 19" equipment racks for protection of home theater and audio equipment. Also mounts in rack for protecting computer network router and repeater. Provides 6 protected duplex receptacles (5 in back and 1 in front) for point-of-use surge suppression. Covered by a \$25,000 Lifetime Limited Downline Warranty</p>

Application No.	Application/Product
2 6 10	<p>Leviton's "Lev-UPS" range of Uninterruptible Power Supplies</p> <p>Features include:</p> <ul style="list-style-type: none"> • Product configurations: tower, strip, 19-inch rack-mount and "slim" under-monitor • "Lev-Con" Line interactive units provide automatic voltage regulation for sags and swells • "Lev-Ware" software provides save and shutdown feature and power monitoring • Superior Product Connected equipment warranties for surge protection and PC monitor under-voltages

Application No.	Application/Product
11	<p>Meter Socket Surge Arrester Adapter (Cat. No. 50240-MSA)</p> <ul style="list-style-type: none"> • Uses 53mm MOV's per phase • 70 kA max. surge current • UL Listed for 200 Amp continuous load current • 15-year warranty with "white-goods" appliance coverage

Application No.	Application/Product
2	<p>Plug-In Surge Protectors Cat. No. A-1511 Single Outlet</p> <ul style="list-style-type: none"> • Ideal for dedicated protection of microwave ovens • Provided with Connected Equipment Warranty <p>3500 Series 6-Outlet Plug-Ins</p> <ul style="list-style-type: none"> • Versions available with phone and coax ports
